

Andrés López is Head of Service at the Directorate General of Civil Aviation. With nearly 20 years of experience in the sector, he led the preparation of the Strategic Plan for the development of the civil UAS sector promoted by the Ministry of Transport, Mobility and Urban Agenda through the Directorate General of Civil Aviation. He is currently working on its implementation as well as on regulatory aspects related to UAS in Spain or the development of the European regulatory framework for the U-Space.

In the Directorate General, he also works on other fields within the scope of airport economic regulation, airport capacity and the development of strategies in the field of civil aviation.
