

In 1997, I graduated the Polytechnic University of Bucharest with a degree in Aeronautical Engineering and started my professional career in DACAir, as a flight dispatcher.

Starting from 1999, I joined CARPATAIR, as head of the flight dispatch.

From this position, in October 2000, I joined to Romanian Civil Aeronautical Authority (RoCAA). Initially I was responsible with coordinating the implementation of the quality management system within RoCAA. In 2009, I changed my position, and my new tasks and responsibilities were the management of issues pertaining to national regulations - Annex I aircraft (airworthiness certifications of aircraft, approval of maintenance organizations), certification of welders and NDT operators, etc.

At the same time as, I was involved in various programs or working groups as follows:

2002 - Inspector in the "*EU Ramp Inspection Program*" (SAFA/ SACA - European Safety Program of the European Commission);

2010 - Member of the Association "*UVS Romania*" (*Unmanned Vehicle System Romania*) - Member of the Association "*UVS International*";

2012 - Member of the Technical Committee (CTS) of the State Safety Program (SSP) Romania;

2014 - Coordinator of RoCAA (Focal Point) activities in relation to "*Joint Authorities for Rulemaking on Unmanned Systems*" (JARUS) and member of working group seven JARUS "*Concept of Operation*";

2018 - Member of the Expert Group on Drones (E03533) / European Commission working group coordinated by the Directorate-General for Mobility and Transport of the European Commission (DG MOVE);

2019 - Coordinator of the RoCAA working groups in charge of analyzing and implementing the provisions of Regulations (EU) no. 1139/ 2018, 2019/ 945 and 2019/ 947.
